

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2020 年 12 月 30 日

今日も南半球高緯度の雲は、Mare Sirenum (140W~170W, -30)で顕著である。Mike Hood は NPR 付近の暗い模様をはっきりと記録した。今シーズンは、この部分の模様をしっかり記録したものはなく、貴重な情報だ。極小の SPC も見事である。

(by 6 observations; reported by Makoto Adachi)

Even today, clouds at high latitudes in the Southern Hemisphere are prominent in Mare Sirenum (140W ~ 170W, -30). Mike Hood clearly recorded a dark pattern near NPR. This season, there is no record of this part, which is valuable information. The tiny SPC is also amazing.
