中央に Mare Sirenum が見える位置になる。南極雲と思われる白く明るい雲のすぐ北に、その大きな暗部のあることが分かる。しかし、画像は処理が強く、記録された模様が分からなくなってしまった。残念だ。

Mare Sirenum can be seen in the center. It can be seen that there is a large dark area just north of the bright white cloud that seems to be the South polar cloud. However, the processing of the image was so strong that I couldn't understand the recorded pattern. It's a shame.
