

Black letters are mainly descriptions of patterns.

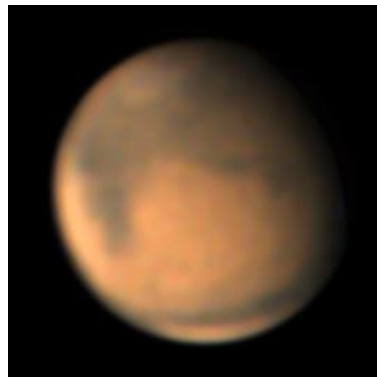

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

この画像を見ると、Syrtis Major (293W,+0~20)は全体が淡く、左端に円い暗部が目立って記録されている。この暗部以外の地域は広くダストに覆われていることが分かる。Sinus Sabaeus (320W~350W,-10)の東半分(左側)も同じように淡く写っている。NPCを取り巻く暗いバンドは、左ほど淡く、ダスティーになっている。

Vicent Gonzalez Cebria

In this image, Syrtis Major (293W, +0~20) is faint overall, and a circular dark area is conspicuously recorded on the left edge. It can be seen that the area other than this dark area is widely covered with dust. The eastern half (left side) of Sinus Sabaeus (320W~350W,-10) is also faint. The dark band surrounding the NPC is lighter and dustier to the left.
