

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2023 年 3 月 29 日 (2023.Mar. 29)

前日の 3 月 28 日に見られたダストストーム状の模様の続きを見たかったが、もうすでに何も見えなくなっていた。Raimondo Sedrani や Vicent Gonzalez Cebria の観測では、問題の場所を観測している。また、Amazonis (120W~170W, -5~+30)が広い範囲に薄雲の出ている様子を記録している。

I wanted to see the continuation of the dust storm-like pattern seen on March 28, the day before, but nothing was visible anymore. Observations by Raimondo Sedrani and Vicent Gonzalez Cebria have observed the location of the problem. Also, Amazonis (120W~170W, -5~+30) recorded thin clouds over a wide area.

(by 5 observations; reported by Makoto Adachi)
