

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2025 年 2 月 9 日 (2025, Feb. 09)

Ausonia (W235~270,-55~-20)南部の雲は淡くなってきた。Carsten Bauer の画像には、午前半球に Tharsis (80W~120W,+10)の火山が今日も赤っぽく写っている。B 画像にはこれらは暗斑として記録されてた。アルバも午前中は赤っぽいようだが、まだ明瞭な姿は見えていない。

Clouds in the south of Ausonia (W235~270,-55~-20) are getting lighter. Carsten Bauer's image shows the volcano Tharsis (80W~120W,+10) reddish in the morning hemisphere again today. These were recorded as dark spots in the B image. Alba (115W.+45) also seems to be reddish in the morning, but I have not seen it clearly yet.

(by 11 observations; reported by Makoto Adachi)
