

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2025 年 2 月 10 日 (2025, Feb. 10)

Ausonia (W235~270,-55~-20)南部の雲は目立たなくなった。井上の B+<450 の画像では Mare Cimmerium (W180~W250,-40~0)が完全に雲に覆われている様子がみえる。Libya (275W,+3)と Ishidis (270W,+23)付近に濃い雲があって、そこから東(左)に雲の広がっている姿が記録された。特徴的な姿である。この雲は濃いものではなく、カラー画像では Mare Cimmerium (W180~W250,-40~0)が淡い写り方になるほどのものではなかった。

Clouds in the south of Ausonia (W235~270,-55~-20) are less noticeable. Inoue's B+<450 image shows Mare Cimmerium (W180~W250,-40~0) completely covered by clouds. Dense clouds were recorded near Libya (275W,+3) and Ishidis (270W,+23), and clouds were recorded spreading eastward (left) from there. It is a distinctive appearance. These clouds are not dense, and Mare Cimmerium (W180~W250,-40~0) does not look faint in the color image.

(by 7 observations; reported by Makoto Adachi)
