

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2025 年 7 月 29 日 (2025, Jul. 29)

Frank J Melillo は、火星が小さくなっても、まだ追跡している。渡辺は Nilokeras (50W,+30)付近を観測した。東西に白雲の広いバンドが見えているが、その北側は晴れていて、淡い暗色模様も確認できる。Alba (115W.+45)の北側は白雲に覆われている様子が記録されている。

Frank J. Melillo continues to track Mars even though it has become smaller. Watanabe observed the area around Nilokeras (50W, +30). A wide band of white clouds is visible from east to west, but the area north of it is clear and a faint dark pattern can also be seen. He recorded that the north side of Alba (115W, +45) is covered with white clouds.

(by 2 observations; reported by Makoto Adachi)
