

Black letters are mainly descriptions of patterns.

Blue letters are descriptions of polar caps and clouds.

Brown letters are the description about dust.

Red is a special note.

2025 年 7 月 30 日 (2025, Jul. 30)

Niliacus Lacus (20~40W,+30) から Nilokeras (50W,+30)付近は白雲で見えにくくなっているようだ。低緯度帯の白雲の活動はまだ活発である。昨日もそうだったが、今日も Mare Acidarium (20~45W,+40~55)の東側が明るい。リムにあって、IR[でも明るいことからダストベールの可能性もある。

White clouds appear to be obscuring the area from Niliacus Lacus (20-40W, +30) to Nilokeras (50W, +30). White cloud activity in the low latitudes is still active. As was the case yesterday, the eastern side of Mare Acidarium (20-45W, +40-55) is bright today as well. It is on the limb, and is bright even in IR, so there is a possibility of a dust veil.
